

# **It is the Time of Cancellations**

## **Numerous Events Canceled**

If you have looked at the event calendar, it becomes very apparent that due to public health precautions, all of our EV showcase events, at least through the end of April, have been canceled. We are in touch with local and state officials and will be following the guidelines that are issued.

April and May are normally the two busiest months for showcases outside of the National Drive Electric Week period in September. Hopefully, before then, we'll all be back online. But at this point, hope is all it is. As of this writing on March 15th, there is still very little testing and, therefore, little hard data about the infection curve of COVID-19.

We offer best wishes to our EV Club colleagues around the country. Until then, bon chance.
