

Windsor Eco-Monarch Festival (& Drive Electric Showcase) Windsor, CT

EV Owners Wanted

Showcase your EV and speak to attendees about the drive electric lifestyle.

The Eco-Monarch Festival is an Eco-friendly fair; focused on green initiatives like climate change action, gardening, waste reduction/recycling, environmentalism, and protection of the endangered monarch butterfly. This year 'First Town Downtown' is partnering with Windsor Climate Action to gather all our environment-friendly activities in one place so you can enjoy it all.

The Drive Electric Showcase is organized and hosted by the Global Environmental Sustainability Action Coalition and the Sustainability Program of the Central Connecticut State University Geography Department.
