

Fairfield First Responder EV Training

EV Owners Wanted for Fairfield First Responder Training

The EV club has worked with the fire departments in Westport and Wilton in the past. The photo at the top is from Wilton. They have an EV component to first responder training, where the instructor goes over where the cables and battery are for some vehicles and reviews what to do in the event of a serious accident.

The Town of Fairfield is scheduling first responder training on March 17, 20, 21, and 22. They are looking for vehicles to be there from 11-12 and 1-2 on each of these days, so 8 sessions in all. We are looking for EV owner volunteers for as many or few sessions as you can do. Even if all you can do is 1 session, it is greatly appreciated.

Any EV, whether BEV or PHEV, is welcome.

These sessions happen to be a lot of fun. While the trainer has an agenda, the attendees have a lot of general EV questions. They are an engaged and intellectually curious audience. You needn't worry about being an expert. Just speak to your experience and what you know.

If you can help out, please go to EVClubCT.com/contact and leave a message. We will coordinate with the Fairfield Fire Department.
