

# **Electrify Your Drive! A Free EV Car Show (All Makes and Models)**

## **EV Owners Wanted!**

EV owners wanted to display their EVs and discuss why they are enthusiastic about their all-electric and plug-in hybrid vehicles and how they use them on their daily commutes and long-distance drives, as well as how they charge the cars' batteries.

Auto dealers will display new EV models; test drives will be offered. Test rides will be provided by experienced EV owners.
