

# Join the EV Club and Sustainne at the Wilton Zero Waste Faire

Please join the EV Club of CT there!

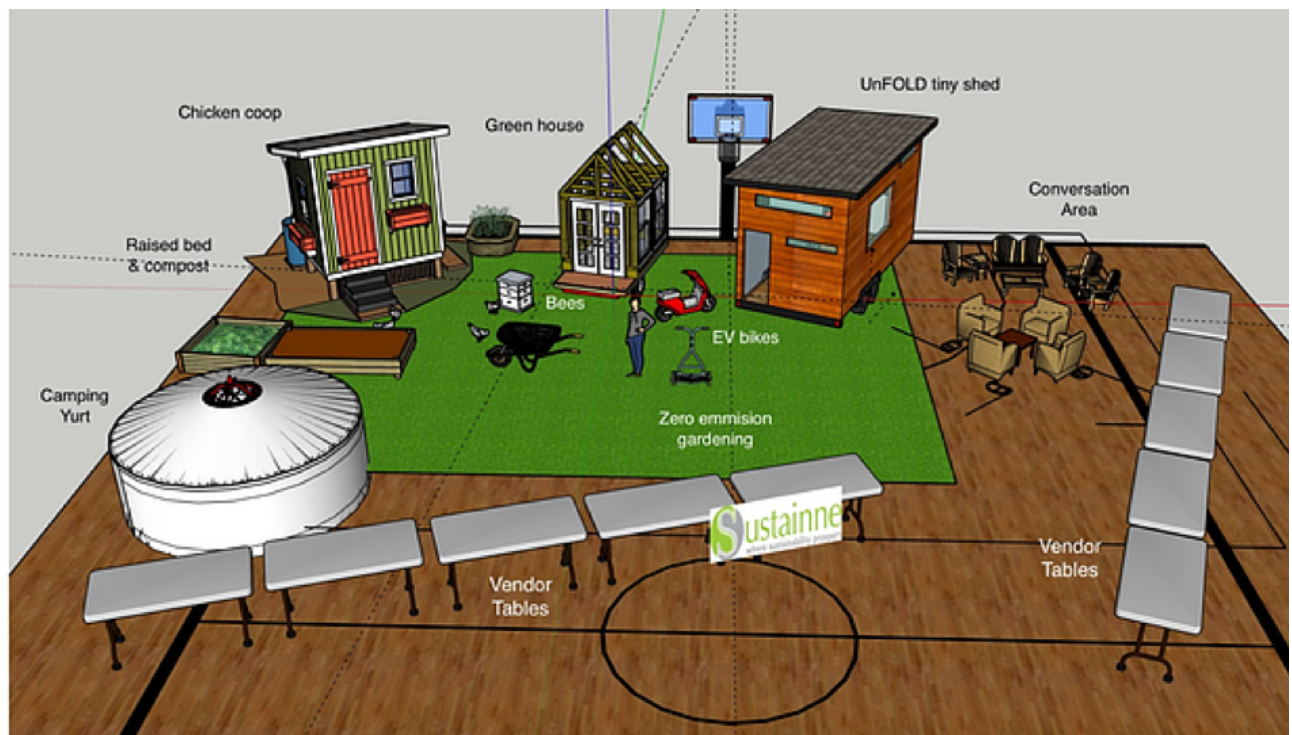

Visit our EV showcase featuring a Chevy Volt, Nissan Leaf, Tesla Model 3 and more in the parking lot. Come inside – it's free – to visit us at our exhibitor table where we are part of the Sustainne <https://sustainne.com/zone> featuring an immersive sustainable living experience.

We look forward to offering you the opportunity to learn from enthusiastic EV owners about how easy and fun it is to drive an EV, and get your questions answered about safety, charging, servicing and more as we lounge in the Conversation Zone filled with comfy furniture courtesy of The Junkluggers.

Sustainne is a proud sponsor and Green Partner! The Junkluggers is a Silver Sponsor and is hosting the Conversation Zone to foster dialog around zero waste and sustainable living. Bring your used textiles to recycle on the Bay State Textiles truck and junk to recycle on The Junkluggers truck (first 100 guests only).

Bring the whole family to enjoy Sustainne's immersive sustainable living experience featuring a zero waste tiny home, zero waste tiny greenhouse, a raised bed with edible crops, a chicken coop, a composting system, beehive, a rainwater harvesting system, an electric scooter, rescued and upcycled furniture and art and more!

## MISSION:

The Zero Waste Faire is a special event designed to educate, inspire, entertain, and engage the town of Wilton and neighboring communities about zero waste living. With your participation, this event will be even more dynamic than last year's, which received broad accolades, featured over 100 exhibitors, and had an attendance of over 1000 people of all ages from CT, NY and MA.
