

# Tri-Town Teachers Federal Credit Union Welcomes Members From Westport Electric Car Club

## Tri-Town Teachers Credit Union

Members of the Westport Electric Car Club are now eligible to join the Tri-Town Teachers Federal Credit Union and receive the full array of banking and insurance services offered at rates generally below standard bank rates.

The National Credit Union Association has modified its regulations to allow community organizations to become members. The partnership between the TTFCU and WECC is a particularly good fit in light of the credit union's Go Green Initiatives, which include the installation of solar panels on the roof of their historic 1882 carriage house location at 61 Jessup Road in downtown Westport. In addition to generating clean electricity for the building, they also power two Level 2 EV charging stations which are open to the public for no charge, and which were installed courtesy of a contribution from Karl Chevrolet.

The TTFCU also offers discounted auto loans to purchasers of plug-in vehicles.

To quote from the credit union:

"We hope to find other like-minded organizations whose members are interested in maintaining the rich historic heritage of

our area and that support green initiatives to preserve the beauty and environmental health of our planet.”
